

TEAM: Veterinarian - *Fair Pets Vet*

1. About us

A small vet clinic that wants to provide high-end veterinary care with love and compassion for our favourite household family member. We promote optimal health for all the stages of life. We are located at 3818 Blackwell Street, Fairbanks, Alaska.

2. What we expect

An old business looking to promote ourselves with a new website. We want to save ad space on our websites so we can show off (and get money) our products and partners. Something simple.

3. Content

We would like to show off our 2 doctors, 2 technicians and 2 support staff.
Have a way for clients to make online reservations or inquiries.
Photos are lots of cute animals that we can care for in the cold winter months.
List of services as well as their cost.

4. External Data

We don't have any social media at the moment. We are still new to the internet world. Are their cool ones we should be part of?
